

Front Elevation

Rear Elevation

Plan 02.019.001

2,599 square feet
39'-6" wide x 69'-4" deep
(Approximate dimensions)

2 stories
4 bedrooms
2.5 bathrooms
Loft
2-car garage

Angled braces at the garage and covered entry add contemporary detail. The two-story foyer leads to a large great room with an expansive kitchen, adjoining formal dining room, and a covered patio with circular terrace. A back hallway from the foyer leads to a large walk-in pantry, powder room, laundry room, and garage with extra storage.

The open stairway leads up to a loft overlooking the foyer, providing room for playing video games or watching movies. Three large bedrooms and a privacy bath make this ideal for a large family and visiting friends.

The master suite is on its own level and features a balcony overlooking the loft and foyer below, a spacious vaulted bedroom, large bathroom, and big walk-in closet, making this a luxurious retreat.
